SOLAR FRIENDLY

6 Watt solar panel standard for slide gate operators.

AC Charger is a 5 stage micro processor controlled charger rated at 900ma.

For Solar installations of more than 20 cycles a day or AC charged installations of more than 100 cycles a day please consult factory for free installation design assistance and recommended Solar Friendly Accessories.

NEW RADIO EQUIPMENT

All Patriot Gate Operators are now ORACLE ENABLED. Features include Dual Frequency Gate Control Unit (DFGCU) compatible with all Oracle products and HomeLink. Dual outputs allowing one transmitter button for normal gate operation and another for hold open. Easy install Garage door receiver also available allowing single transmitter for gate and garage door activation. Transmitters and Keypads program directly to the DFGCU eliminating delay in response time.

Recommended Battery - 33 amp hour minimum, maintenance free GEL/AGM/Lead Acid

To reduce the risk of injury, USAutomatic strongly recommends the installation of additional safety devices such as Photo Eye Sensors, Safety Loops and Safety Edges. Consult dealer or the factory for complete explanation of options.
